ARTICLE EVIDENCE CONTINUITY

From publication to a reviewable passage

01

Published article

Administrative approval; active lifecycle

02

Revision + snapshot

Content hash and exact passage boundaries

03

Policy-filtered hit

Current grant, revision and span checked

04

Bound citation

Canonical identity saved with assistant turn

05

Evidence viewer

Resolve again using current read policy

Identity: article ID / revision ID + number / snapshot ID / half-open span [start, end)

Historical identity does not imply continued readability; source-only uploads follow a separate grounding path.
